

Hopewell Recovery Boiler LCE Elimination Project

Liquor Gun Shield

Life Changing Event

- A life-changing event is a fatality or serious injury that occurs at work and may result in a life-threatening or life-altering injury.

Potential Life Changing Event

- A potential life changing event is an injury or illness that had the potential to result in a fatality, life-threatening or life-altering injury or illness (serious injury) had the circumstances been slightly different.

First Aid Case 10-7-18

- In 2018, we had a First Aid case that had the potential to be a life changing event when the boiler draft went positive causing black liquor char to contact an employee that was nearby causing minor burns to face and neck.*

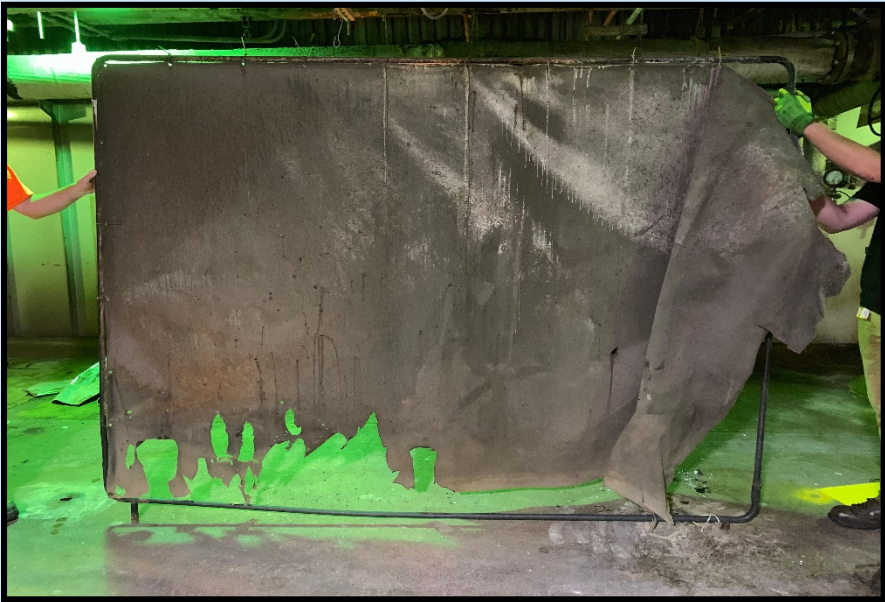

Recovery Boiler Gun Port

- Black Liquor Fuel Delivery ports on the Recovery Boiler
- Fuel is being sprayed into the firebox
- Upset conditions may cause the boiler to have positive pressure creating blow back (flames & black liquor char)
